

M72GB71

Medium-Full 72 Days to Bloom 115 Days to RM

Management & Positioning

- Medium-full season bronze with excellent sugarcane aphid tolerance
- Good performance across geographies from Delta, to South Texas, to central Kansas
- Excellent roots and stalks with standability and very uniform field eye appeal
- Very high yield potential in irrigated or good dryland conditions
- Fusarium head blight tolerance with very good test weight
- Very good drought and heat tolerance
