

Medium-Early Relative Maturity

Soft Red Winter

Management & Positioning

- A variety for the low vernalization areas of the southern wheat market
- An exciting genetic combination with Baldwin parentage
- Has been bred to be great against barley yellow dwarf virus and soilborne mosaic virus
- A great companion to plant with Dyna-Gro Plantation; both with great test weight
- Resistant to most biotypes of Hessian fly but not all

Management Tips

- Strong yield history in the gulf states
- Plan a head scab suppressing fungicide at flowering
