

**Med-Full**

**Harvest or Graze at Anytime**

**Management & Positioning**

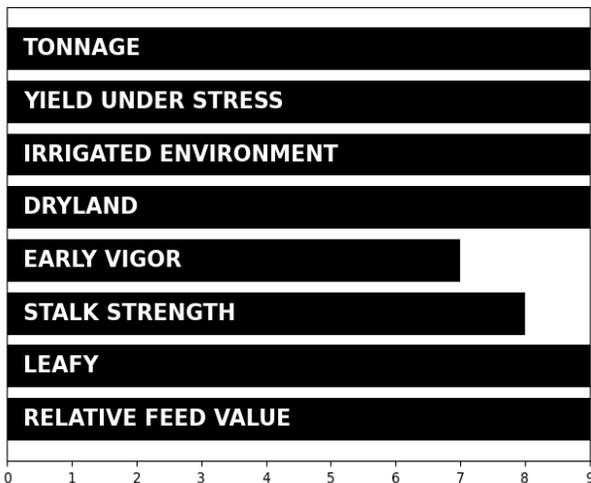

- New design, late maturing sorghum sudan hybrid that allows for a wider window harvest of higher quality BMR forage
- Higher yields and digestibility than conventional sorghum sudan hybrids
- Fullgraze II BMR has excellent tillering, recovery, and regrowth after cutting
- Consistently #1 in cattle preference grazing trials
- Wide range of adaptation because of its very high quality forage and superior drought tolerance
- High green leaf retention, produces high RFV forage. Do not feed to horses
- Can be planted anywhere - harvest whenever you want and as often as you want!
