

**Early Relative Maturity**

**Soft Red Winter**

**Management & Positioning**

- Ultra high yield potential with mostly Eastern adaptability
- Early maturity awned variety with medium height
- Above average tillering provides a nice thick appearance at heading
- Great ratings for stripe rust, leaf rust, and powdery mildew

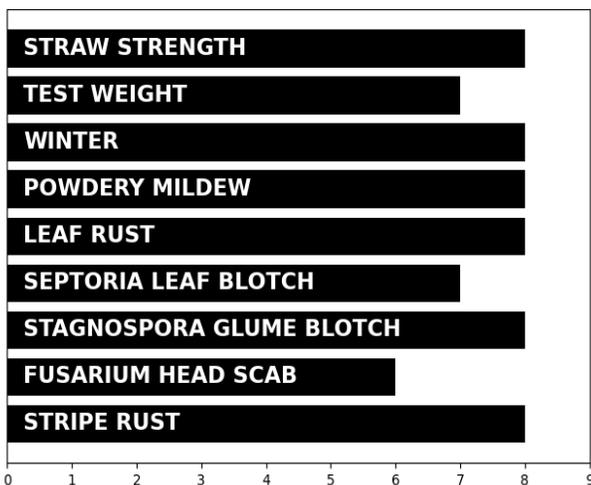

**Management Tips**

- Average head scab and Septoria ratings, will need to be scouted and managed with a fungicide
- Time harvest appropriately with this early variety to avoid declines in test weight
