DYNAGRO SEED

9393

WHEAT

| Medium-Late Relative Maturity	Soft Red Winter

Management & Positioning

- High yielding variety with outstanding yield potential with broad adaptation.
- Excellent agronomic package able to handle most environments.
- Excellent performance in wet and heavy soils.
- Excellent for areas with Hessian Fly pressure
- Above average plant health and average head scab

Management Tips

- Consider a head scab suppressing fungicide at flowering
- Average on vernalization, avoid planting in the deep south.
