

Medium Relative Maturity
Hard Red Spring
Management & Positioning

- Unique hard red spring wheat that is widely adapted to a large geography and most soil types
- Above average protein combined with good yields
- Great straw strength for soils with lodging concerns
- Strong agronomics against Stripe Rust and Bacterial Leaf Streak

Management Tips

- Apply fungicides to suppress Fusarium Head Scab in situations with elevated infection risk
- Seeding above 1.6 million seeds per acre is not recommended for acres not considered high management/high yield.
