CANOLA

DG 761 TM

TruFlex™
CANOLA with Roundup Ready®
Technology

44 Average Days to Bloom

88.3 Average Days to Maturity

Product Description

• A high yielding TruFlex™ Canola with Roundup Ready® Technology with harvest management characteristics which allow growers to have the flexibility at harvest to straight cut or delay swathing. DG 761 TM brings a wider spray window and application rate flexibility helping growers maximize yields. Excellent standability.

Yield

Yield Rating..... **Excellent**

Product Comments

- Excellent yield potential across diverse canola growing regions.
- TruFlex™ technology for better control of tough weeds
- Excellent Blackleg resistance to protect against yield loss
- Excellent standability rating

Agronomic Traits

Standability..... **Excellent**
Maturity..... **Mid-Season**

Seed Treatment..... **Helix® Saltro®**

Zone Of Adaptation

ND, MT, OR, WA

Disease Ratings

Black Leg..... **Resistant**

Clubroot..... **N/A**

The U.S. Environmental Protection Agency (EPA) requires a refuge on every farm that plants insect-protected corn hybrids. Failure to plant the appropriate refuge jeopardizes your continued access to DAS, Monsanto and Syngenta technology.

Ratings Key: **Standability Rating 0-9 scale; 0=Excellent, 5=Average, 9=Flat. **R**=Resistant, **MR**=Moderately Resistant, **S**=Susceptible; **n/a**=Testing not complete. Data from: *2020 University of Idaho PNW Spring Canola Trial, **Montana State Canola trial, Sidney, MT, ***NDSU Spring Canola trial Langdon, ND. **Actual ratings based on best current information available and may be affected by changing environmental and management conditions**
